

The Licensing Essentials

Navigating Regulations & Compliance

1. Zoning & Safety

Check local zoning laws first. Your location must be approved for childcare. Fire and health safety inspections are mandatory.

2. Ratios & Staffing

Understand your state's child-to-staff ratios. This dictates your capacity and hiring needs. Background checks are non-negotiable.

3. Policies & Handbook

You need a Parent Handbook and an Operations Manual. These cover sick policies, pickup procedures, and emergency protocols.
