

The Marketing Essentials

Filling Your Spots Before You Open

1. Digital Presence

A professional website is your #1 asset. Optimize for local SEO ('daycare near me'). Claim your Google Business Profile.

2. Trust Signals

Collect testimonials early. Use certifications, high-quality photos, and transparent pricing to build trust with parents.

3. The Funnel

Don't just rely on word-of-mouth. Use paid ads (Google/Facebook) to drive traffic to a lead capture form. Follow up immediately.
