

The Operations Essentials

Running a Smooth Ship

1. Daily Rhythm

Structure is freedom. Define a daily schedule for different age groups. Include transitions, meals, nap times, and free play.

2. Staff Culture

Hire for character, train for skill. Regular staff meetings and clear communication channels prevent burnout and turnover.

3. Financial Cadence

Automate billing. Collect tuition in advance. Review your P&L monthly. Cash flow kills businesses faster than lack of profit.
